general del poder judicial aunque se reconoció la constitucionalidad de ese cambio desde entonces se escucha que la justicia está politizada porque esa designación parlamentaria contamina políticamente al órgano de gobierno del poder judicial y por extensión a todo. Se ha llegado a denunciar ante la onu la falta de independencia judicial en España además se ha extendido en la carrera judicial la idea de que el consejo no se preocupa de las condiciones en que trabajan los jueces no les defiende cuando se les ataca ni premia a quienes más se esfuerzan y está más atento a las indicaciones de los órganos políticos o de los medios que a sus justas demandas esa amplia insatisfacción se ha manifestado en huelgas de jueces y en su apoyo a iniciativas dirigidas a reivindicar su independencia

some issues also include special numbers devoted to the literature of other communist countries translated into spanish

this study deals with the experience of exile in the works of three spanish american writers the cuban authors reinaldo arenas and manuel diaz martinez as well as the uruguayan author fernando ainsa along with the reshaping of territories and socio economic and cultural dimensions which took place on a worldwide scale the last few decades have also witnessed a reshaping of the spectrum and voices of latin american writers that create revisit and suffer the complex and multifaceted phenomenon of exile the displaced subject or rather the voices of the displaced the marginalized and the excluded rise up from a fringe that for various reasons or motives will always represent a place that lies beyond the borders imaginary or real of the spatial political cultural linguistic and sexual communities to which they subscribe and these voices regardless of the grouping to which they belong and the choices on which they base the necessity

or purpose of their expressive survival map out a work that while being personal in its origins speaks to a more general context exile and about exile provided that we draw a distinction between these two facets to the extent that it is possible by having regard to thematic nuances and gradations that give substance to the journeys that mould diatopic variations in the discourses of the uprooted and it is necessary to speak in plural because beyond the characteristics or common motives of nationalities and the political fortunes that have left their mark on entire generations of exiles exile as a phenomenon responds to the rootlessness in itself the blank spaces and the lack of linguistic affective and cultural continuity with strategies identity masks and tactics for representation and resistance that infuse each of these idiosyncratic discourses hence its originality and intrinsic solitude hence its penitence and hence also its familiar and irreplaceable expressive uniqueness it does not take much reflection to conclude that latin american literature has and continues to emanate predominantly from internal or territorial exiles historiography of latin america tower above the founding moments and extend far beyond the consolidation of the nation states think of a work such as *el facundo* by the argentine writer domingo faustino sarmiento written in the style of a political pamphlet in an attempt to justify the ostracism that the author suffered thereby initiating in more ways than one the narrative of the american subcontinent and its peculiar combination of genres think also of the journeys of pablo neruda gabriela mistral and julio cortazar amongst other intellectuals not to mention the vast list of travellers in the 19th century who set out to explore large parts of the american and european continents travelling as far as the middle east or exile in reverse experiencing its destabilising face stirred up by the cultural agendas projected onto the literary establishment by the ruling elites as occurred in the rio de la plata towards the end of the last century the demands that stem from violence and the devastating side effects of globalisation has transformed the latin america of our day into a continent of emigration and it is a fact that those aspects which shape the identity of the field of literature have had to undergo significant short term and long term reassessments in order to assimilate new cultural centres of gravity and heterogonous cultural elements the work presented here by jose ismael gutierrez shares a similar concern namely the need for research which for some time has been enriching the latin american literary bibliography in these parts as never before however careful consideration reveals that

this study is linked to one of the essential discursive categories of the literary phenomenon in the history of our literature namely territorial displacement as a system involuntary displacement and the stigma of exclusion the author possesses an ample theoretical and historic background for his research of some of the many figures that serve as conduits for the writings of exiles on latin american soil assessments are alternated with points of view drawn from sociology politics philosophy psychology and culture in general this studious spaniard with his keen observations demonstrates his profound knowledge of the various periods in the literature of the new world having previously sufficiently proven his command of the field with an exceptional list of academic essays and articles on the 19th and 20th century which were published in these latitudes such experience and scholarship seem to me to be a necessary condition for understanding the evolution of the literature and culture of latin america from its roots and also from a global perspective in other words without restricting one s point of view to regional or generational phenomena which though interesting are but of limited importance which professor gutierrez devotes the following three sections the cuban authors reinaldo arenas and manuel diaz martinez as well as the uruguayan author fernando ainsa and the unusual manner in which their respective contributions are presented each one from certain historic cultural coordinates and from an own interpretative angle extend a forceful and novel invitation to the reader whose intelligence and aesthetic sensibilities will engaged while being guided page after page along the various experiences of certain concrete real life exiles whose experiences are physical external and geographical while at the same time being internal and spiritual these exiles open up brilliant areas of discussion which the critical lucidity of the researcher once again transforms into an essential and penetrating lesson on the most complex dimensions of contemporary and earlier latin american literature
